DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-2 and 6-7, drawn to an electronic camera with two separate storage devices, classified in class 348, subclass 231.99.
 - II. Claims 3-6, drawn to an electronic camera with a single-shot and continuous photographing modes, classified in class 348, subclass 220.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as an electronic camera with dual photographing modes. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
